

PARADE SPECIAL—1915
DAILY LEDGER—MAYSVILLE, KY.

MAYSVILLE, KENTUCKY, THURSDAY, FEBRUARY 25, 1915.

ONE COPY—ONE CENT.

The winter sun was setting
O'er the wastes of Polish snow—
The curling smoke was rising
Where the camp-fires shed their glow.
Von Hindenburg, the warrior,
Sat in sorrow in his tent—
Grief bowed his mighty shoulders,
And his stately head was bent.
"I grow old," the general muttered,
"And I throw my time away—
For I haven't whipped the Russians
Since near 3 p. m. today!"

of Rev. Isaac Caudill.

Dispatch to Public Ledger.
Muses Mills, Ky., February 24.—Elisha Caudill and his wife, an aged couple that lived near Waltz, in Rowan county, were burned to death late last night when their house and all its contents were destroyed by fire. The old couple, who were each near 80 years of age, lived alone, but near their son, Rev. Isaac Caudill, who had been looking after them.

About midnight the fire was discovered, but the house was then falling in, and the old people were trapped and incinerated in their bed.

Their bodies were almost destroyed, there being nothing remaining but a few charred bones.

WALKED IN HIS SLEEP.

Louisville, February 24.—George Henry Burch, aged 51, manager of the Commercial Hotel, walked in his sleep through a second story window and was killed by the fall.

MOTORMAN THE ONLY PERSON TO WITNESS HEART-RENDING TRAGEDY.

The Indianapolis Star of last Monday gives the following first-hand account of the terrible deaths of Misses Maggie and Jacova Bacon, who were instantly killed last Sunday morning in that city:

"There were no witnesses of the tragedy except the motorman, but it is thought that the women, who were un- used to interurbans and street cars, mistook the interurban for the Broad Ripple car on which they intended to ride to church and were killed in an attempt to hasten across the track and signal the car to stop.

"The victims were:
Miss Margaret Bacon, 58 years old, Maysville, Ky.
Miss Jacova Bacon, 56 years old, Maysville, Ky.

"The Misses Bacon have been visiting for several weeks with their sister, Mrs. W. Henry Holton, 5104 Ashland avenue. They were regular attendants at the church services and left the Holton home yesterday morning in ample time to catch the inbound Broad Ripple car. The interurban car preceded the Broad Ripple car by several minutes.

"Charles L. Berry, 901 Helm street, Noblesville, Ind., was motorman of the interurban car which killed the two women. He told Coroner Poole and Sergeant Weaver that he saw the two women walking rapidly down the street toward the tracks as though about to cross, but he thought they would stop. He blew several warning blasts on the whistle, he said, and as the women were still some distance from the tracks, did not slacken his speed. When a few feet from the car, he said, the women suddenly attempted to run across the tracks, not seeming to realize the speed of the interurban. They were walking side by side and both were thrown 100 feet when struck.

"The police emergency automobile was speeding down Central avenue to the scene of the accident when a man dashed out into the street waving his hands madly. Thinking another accident had occurred, the machine was stopped, only to learn that the man was Henry Holton, a nephew of the two women who were killed, and he was taken to the scene.

"Coroner Poole arrived a few minutes after the accident occurred, and after taking the statements of the motorman and persons who ran out when they heard the crash, he allowed the bodies to be removed to the Holton home."

FIRST BAPTIST CHURCH REVIVAL.

"The Wonderful Words of the Gospel" was the subject of a very strong sermon by Dr. Jones, from the text, John 3:16, at the Baptist revival last night. The choir and congregational singing under the leadership of Prof. Hughes improves with every service, while Prof. Hughes' solos are so fine that we could hardly expect them to get better.

Really, friends whether you be "sinners saved by grace," or sinners not saved at all, you owe it to yourselves to hear these men of God preach and sing the gospel. The song service begins at 7:15 and the preaching service at 7:30 o'clock each evening. Come, and bring some one with you.

Dr. Jones and Prof. Hughes invite you to meet them at the Gem Theater from 12:25 to 12:55 for men only, to hear a stirring message and soul-inspiring singing.

THE MUSICAL TREAT OF THE SEASON

Schumann Quintet
A group of five artists, under the direction of Carl A. Lampert, who for five years played First Violin in the Thomas Orchestra.

Each player a musician of ability and imbued with the one idea of delighting the audience and instructing them with classical and finer selections.—Winfield (Kansas) Press.

The Schumann Quintet brings to the Lyceum a genuinely new idea, that of presenting "symphonic concerts" with a company of five musicians, and to secure this effect a specially constructed road organ is carried, which gives all the real and wind effects of a large orchestra.

All lovers of good music should hear the Quintet at the High School Auditorium Friday night, February 26th. In order that no one may be disappointed in getting a good seat, reserved seats will be on sale Wednesday morning, February 25th, at Williams' Drug Store. Tickets 25c and 50c.

HEALTH INSTRUCTION IN AN INDIANA COUNTY.

Common sense is an uncommon quality. One of the most difficult lessons to learn is that the way to do a thing is to do it. The county health commissioner of Union county, Indiana, feels that one of his duties is to teach the people of the county how to keep well. He has accordingly prepared a little 75-page pamphlet, made up largely of material published by the various state boards of health. The board of county commissioners made an appropriation to send a complimentary copy to every home in the county. The pamphlet is simply, but forcibly written, and contains chapters on the home, contagious diseases and the baby.

In the first chapter, the people are told how to keep their homes clean and healthful, how to dispose of their garbage, how to care for their food and how to take care of their bodies. Directions for disinfection and especially directions for various contagious diseases make up the second chapter, while the third and most important contains directions to mothers for the care of themselves and their children.

We have been a long time in learning that if the teacher of good health would compete with the patent medicine man, he must meet him on his own ground. Instruction of the people on health topics is a public duty. It should not be left to professional zeal or to philanthropy. The publication and distribution of such pamphlets as the Union County Health Book are directly and solely for the public good and will yield large dividends in the form of better health and prosperity for the people. If each county in the nation had a health officer as wide awake and a board of commissioners as broad minded as those of Union county, Indiana, says the Journal of the American Medical Association, the problems of the prevention of disease and the prolongation of life would be immensely simplified.

THIS IS REFRESHING.

Mr. James Garnett, the Attorney General of the state, announced that he will not seek the Democratic nomination for Governor, but will devote the remainder of his term to disposing of the important business that remains in his department to be handled, and will at the expiration of his term return to Columbia to practice his profession.

CAUSE FOR THANKS.

While we're not shaking hands across the sea quite as much as formerly, thank goodness we haven't yet reached the stage of shaking fists.—Pittsburg Gazette-Times.

HANDY TO HAVE AROUND.

Italy's recipe by which she made Turkey salute her flag should be sought by President Wilson and Mr. Bryan.—Topeka Journal.

HALF AN HOUR WOULD DO.

A blatant military Congressman says, "In case of attack, our coast defense guns would have to cease firing after an hour."

If Emperor Bill had less faith in submarines and more in the Justice of the Lord Almighty, he would have come out better than he will.

Protection is not only an ounce of prevention, but it is a sure cure for industrial doubts, fears or depressive facts.

President Wilson not only has "Congress on his hands," but has Bryan on hand, like a sore thumb. Too bad if war should interfere with Mr. Bryan's clautanqua plans.

SENATOR LODGE'S "PARTISAN PROPOSAL"

Because Senator Lodge has seen fit to tell some unpleasant truths about the country's military unpreparedness and the responsibility of Congress for the condition he describes, some ardent Democratic newspapers have raised the cry that the proposal he makes is "partisan." Let us see about that.

What Senator Lodge proposes is a thorough and comprehensive investigation into defense conditions by a commission to consist of three persons selected by the President of the United States, a Democrat; three members of the United States Senate to be selected by the Vice President of the United States, a Democrat; three members of the House of Representatives to be selected by the speaker of the House, a Democrat.

Were Senator Lodge, a member of the Democratic party the suggestion that his proposal smacks of partisanship might perhaps have some weight. But Senator Lodge is a Republican.—New York Herald.

FOOLISH PHILOSOPHY.

"The most common form of human vanity: 'They can't get along without me.'"

A boy's idea of a hopelessly sissy person is another boy who likes to go to school.

All the advertising in the world won't get a crowd out to see a girl baseball club play.

The older a man becomes the more he appreciates the old saying that a man's days betray the secrets of his nights.

Maybe you also have noticed that the kind of man who is stingy and stubborn is hardly ever harassed by debts.

When a boy is trained up in truth from infancy he takes him a good while to get over it after he is grown.

Of course, a woman hasn't much sense of humor, but although she doesn't laugh, her husband's excuses sound funny to her.

The other fellow's advice may turn out all right if you mix a little common sense with it.

And some people make a specialty of being suspicious.

This Is the Stuff.

Many German saloonkeepers in Brooklyn, N. Y., display above their bars a sign reading as follows:

"If you want to fight, go to Europe.
"If you want to talk about the war, go to h—
"This place is neutral."

The motto may be crude, but it's certainly got a punch in it.

Ma Was' Particular.

The little girl timidly asked the drug clerk for a package of pink dye. "What do you want it for?" responded the clerk. "Woolen or cotton goods?"

"Neither," said the child. "It's for ma's stomach. The doctor said she'd have to dye it (diet), and so she

DOWN SHAFT OF MONUMENT

Woman Writes Farewell Note To Husband and Plunges 500 Feet In Washington Obelisk.

Washington.—Mrs. W. F. Cockrell, 32 years old, of Del Ray, Va., jumped into the elevator shaft of the Washington monument at a landing near the top and fell to the bottom, more than 500 feet below.

She left a note addressed to her husband saying she was sure she could not recover from an illness. Her body was crushed by striking the sides of the shaft on the way down and she was dead before her body reached the bottom.

The District Coroner issued a certificate of death by suicide. Mrs. Cockrell's farewell note, written on a physician's prescription blank and left in the monument, said she realized she was "a burden" to her husband, and asked that her body be cremated.

It was the first time the towering obelisk, which was opened to the public in 1888, and has been visited by millions of Americans, had been the scene of suicide. Ten years ago a painter working in the shaft accidentally fell to his death.

An hour before the monument was closed for the day, Mrs. Cockrell went to the observation gallery near the top of the structure in the elevator. A few minutes later she walked down to the third landing, and clambered between the steel rails that separate the elevator shaft from the stairway.

Sightseers screamed and Miss Edna Rockefeller of Tacoma Park, rushed to Mrs. Cockrell's side and clutched at her clothing. There was a brief struggle, then portions of the dress gave way and Mrs. Cockrell plunged down the shaft.

A few hours earlier Mrs. Cockrell had gone with her husband to the office of a local specialist on nerve troubles.

Sheriff W. W. Poynter amused quite a crowd Friday afternoon with a fox chase just outside of town. The fox was released in the rear of the Methodist parsonage, and the pack of hounds tracked him near the residence of Thomas Overton. He was released again and caught two more times, the last in a culvert near where Elsie Paris lives. The fox was brought back and will be reserved for another chase.

The readers of this paper will be pleased to learn that there is at least one advertised disease that has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure takes internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for anyone who can fail to cure. Send for literature immediately.

HUMANE SOCIETY

Great Work of Protecting Dumb Brutes From Man's Inhumanity Starts Here—The Laws To Be Enforced.

Tuesday afternoon a few interested persons met in the Public Library and started the organization of a Humane Society, the object of which is to prevent cruelty to animals in the city and county.

The names of a number of men and women are on the list of members.

There are as strict laws against cruelty to animals on the statute books of Kentucky as there are against stealing and should be as strictly enforced.

Many cases of cruelty are from thoughtlessness, especially among young people, and education in kindness and thoughtfulness for those creatures who can not speak for themselves will be one of the features of this society.

Whomsoever, such as abusing, beating or knocking down a horse, is subject to a fine and such cases should be reported to the police whenever they occur.

Another meeting of the society will be held in March, and we hope for more interest by humanely inclined people.

"A man of kindness to his beast is kind;

But brutal actions show a brutal mind;

Remember, he who made thee, made the brute.

Who gave thee speech and reason, formed him mute.

He can't complain, but God's all-seeing eye

Beholds thy cruelty and hears his cry.

Know thou this creature is thy drudge,

And know that his Creator is thy Judge."

TO CONSULT CAMDEN

Tobacco Leaders, Beckner, Matchler and Bradley Wilson Reported Seeking Senator's Advice.

Senator Johnson N. Camden is to be consulted regarding the presidency of the new tobacco organization that will be perfected in Lexington Tuesday, March 2, when the tobacco growers of the Burley district will assemble, according to a well defined rumor that was being discussed yesterday among the farmers attending the tobacco sales. It was stated in tobacco circles that Secretary Lucien Beckner, Dr. Fred Matchler and Bradley Wilson left Monday for Washington to consult Senator Camden regarding the best available man for the place.

The wide experience of Senator Camden as a business man, his knowledge of men and matters and of the problems that affect the agricultural interests of the state, make his advice valuable and it is said the leaders of the movement were anxious to listen to any suggestions that he might have to make along the line of their proposed organization to bring about better conditions in the Burley tobacco belt.

Princeton, Ind., February 23.—John M. Carmel, Ill., near here.

MINISTER ACCUSED AS "SLAVER"

Chicago, February 25.—The first step looking to the prosecution of Rev. James Morrison Darnell, the "marrying parson," under charges of violating the Mann act, was taken before United States Commissioner Mason today. The present plan is to bring Darnell to trial in the federal court in Milwaukee.

Should it develop that the case in Milwaukee is not strong enough, then he will be placed on trial in Chicago. Prosecution in St. Paul is a third alternative.

Darnell is accused of transporting Miss Ruth Soper of Owatonna, Minn., from Owatonna to Chicago and from Chicago to Kenosha, Wis. The two became acquainted while both were students at the University of Chicago. Subsequently Darnell became pastor of a church at Kenosha, and while there he lived with Miss Soper as his wife.

TIPPERARY

One of the Show Places of Ireland—Town Made Famous By Marching Song Has a Place in Medieval History.

(Washington Star.)

Where is Tipperary? This is a question a great many people have been asking themselves since the publication of "It's a Long, Long Way to Tipperary," which has been sung at almost every entertainment in the British Isles.

Tipperary is not by any means the largest or the most beautiful town in Ireland, but it is a romantic old place, near the base of the Slieve na Mueh, or Tipperary hills. These hills are a branch of the Galtee range and are noted for their wild beauty. The town is located about 32 miles northwest of Cork on the Great Southern and Western railroad. The quaint old place, with its folk lore and rural population, is situated in the center of a fine agricultural district, which once formed a part of the ancient kingdom of Munster.

The county of which Tipperary is the namesake and county seat, was once a palatine, ruled by the powerful earls of Ormond. Its soil is of limestone, overlaid by a rich loam capable of yielding the finest crops. The majority of the population is engaged in farming and manufacturing. Great quantities of condensed milk and butter are produced, the latter market ranking next to that of Cork.

The town of Tipperary, the incorporation of which dates from 1310, has 7,000 inhabitants. It is governed by an elective assembly called the district council, which, as the people are greatly interested in their government, holds quarterly sessions.

Tipperary is of great antiquity, but first acquired importance by the erection of a castle there by King John. The guide points out the site to visitors, but tells them that the remains crumbled away many years ago. Henry III founded there a monastery for Augustinians. This added a stimulus to the growth of the town. The only building of antiquity now standing is the gatehouse of this institution, a relic of departed grandeur.

When the present European struggle had reached its crisis and England entered the contest, many of the sturdy sons of Tipperary left their country and enlisted for service with the colors. One of England's crack regiments is called the "Tipperary Tigers" in honor of the county of that name.

The Court of Appeals May Decide Kentucky Local Option Cases.

(Paris News.)

An appeal was taken Saturday to the Court of Appeals by the wets in the matter of the local option contest cases, which were decided Friday by Judge Stout in favor of the dries.

The wets executed a supersedeas bond, signed by the proprietors of all saloons in Paris, and by Mr. Carl Musser, of Cynthiana, acting for the Central Kentucky Company, a large whisky manufacturing concern, with headquarters in Cynthiana.

Immediately after this bond was executed the dries notified Circuit Clerk Will H. Webb that they wanted a transcript of the record of the case to be filed in the Court of Appeals. This was done under the provision of the law which permits the appellee after an appeal has been granted to expedite the hearing of the case by the Court of Appeals by having a transcript of the record made at once at the appellee's cost.

Since the court has decided that the saloons may continue to run until the contest has been finally decided, it is to the interest of the dries to have the matter determined as soon as possible. By having the transcript made at once they will be able to get the case on the docket of the Court of Appeals for the April term, and they hope to get a hearing and decision before the court adjourns for the summer vacation. They say that if they had waited for the wets to have the transcript made they could not have gotten the case docketed in the Court of Appeals before the September term.

SCHOOL SWIMMING POOLS

Should Be Abolished, Says Fisk—Dr. Landis Opposes Him.

James Fisk, member of the Board of Education, Cincinnati, introduced a resolution at a special meeting of the board to abolish the swimming pools in the public schools, because, in his opinion, they are a menace to health.

Health Officer Landis denied that any disease coming within the notice of the Board of Health could be attributed to the pools. "Mr. Fisk's fears are groundless," said Landis. "Our chemist, Mr. Bahlman, has made a number of tests of the water in these pools, and he found the bacterial count very low, showing that there is practically no pollution. The water is also regularly purified with chloride of lime."

The Gallipolis Tribune says:

On Tuesday morning the work of unloading 15 barges of coal for washing will be begun by Mr. Collins. This coal is washed of all sulphur, slack and any other defects and demands a higher price. The Wananga plant cost the Hartweg Company over \$50,000, and the completion of Dam 26 was of great importance to this big concern, which could not be operated in summer time during the low water season without the Gallipolis pool water which we are guaranteed from this on.

AUDUBON WATER AND POST-MASTERS.

(Dover News.)

The Audubon Blue Lick water from the well near Dover is evidently good for those seeking an official job. John Shuff, who was here once to investigate the water for a Cincinnati millionaire, drank some water from the well and took a few bottles with him, is now postmaster of Cincinnati "at a handsome salary." And J. H. Mitchell, who came here to run the bottling plant at the well a few years ago, is now postmaster at Dover. It's surely some water.

Is some Tobacco. That is the number of pounds that was unloaded and sold at the HOME last week. This is a week's record that has never been exceeded by any loose leaf home in the world, and it shows what "home people" can do.

It is worth a long trip to see the ease and care and satisfaction with which they handled this great quantity of Tobacco. They took good care of every customer and all went home satisfied.

The Home is strictly a home concern. All of its capital stock is owned by residents of Mason, Bracken, Robertson and Lewis counties, Kentucky, and Brown and Adams counties, Ohio. It was erected for, belongs to and is run for the benefit of the Barley Tobacco growers and citizens of this section, and is able to handle and would like to have more business. It can take good care of all that comes. It has handled more business this year than ever before. It is the house that sorts and sells Tobacco well. Its officers and employees do not speculate in Tobacco. They serve along the sellers.

If you are not a stockholder, they would be pleased to have you take some stock. They want every grower in this section to become a stockholder. Shares are \$10 each. It has never failed to pay a dividend and will pay one this year. Get some of the stock. You could not make a better investment.

Pockets in fact are seen even on the wider belts on coats.
